Technical Support

Training classes are available for all JCM products.

Compact / Lightweight Design

The BC-25 weights only 11 pounds and includes a carrying handle, making it truly portable. Its unique compact design occupies minimal space.

Speed

Small in size, big in performance, the BC-25 counts at the speed of 100 bills in six seconds.

Operational Ease

All major operational controls are on the front panel, easily accessible to the operator. The large LED display provides count information.

Two Operation Modes

Continuous or presettable batch counting is available on the BC-25. Select the mode of operation by depressing "Batch" and select 5 - 99 on the number setting above arrows.

Automatic Restart

Upon completion of counting a desired batch, the BC-24 will automatically start counting again upon removal of the counted bills.

Error Code

To ensure accuracy and ease of operation, the BC-25 will display an error code if it detects an error in counting.
