The JCM Global Website provides the tools required to service all of our products. This includes a Software information database containing DIP Switch information, Customer Notifications, Product Manuals, Diagnostic Applications and more.

Parts are Parts

UAC Kit Components

Part No. 701-100103R

Description: UBA/WBA UAC Kit

Usage: The UAC is a Serial to USB Signal Converter for JCM products. The UAC allows the connection of the UBA/WBA/iVIZION and other JCM Products to a Laptop, Notebook or PC which do not have an available RS232C Serial Port connector.

UAC Kit No. 701-100103R, includes the UAC Device, a 12-24 Volt Power Adapter, a Standard Male "A" to Male "B" USB Cable, the UBA/WBA Connector Cable and an Operators Guide.

Note: The UAC incorporates a DIP Switch pack allowing the communications signal levels to be changed from Photo Coupler to RS232C. Kits are available for many different products and support USA and European power plugs. For more information please refer to JCM UAC Device Operators Guide available at www.jcmglobal.com/en/support/downloads/manuals.aspx.

Save Time and Labor with JCM's Latest Intelligent Cash Box System

The ICB® (Intelligent Cash Box) system is a unique cash management system that allows the operator to track a Cash Box and its contents through the entire cash process. The ICB system eliminates the need for dedicating Cash Boxes to specific machines, or putting barcode identification labels on the Cash Boxes. The Cash Boxes are tracked electronically eliminating most variance issues, and with the custom reports provided to each department, accuracy and efficiency is greatly improved.

FREE REGIONAL TRAINING

Give your technicians the tools they need to keep your customers happy and your equipment running at peak efficiency.
